Our visit to the Shrine of Our Lady of La Salette, located in Twin Lakes, Wisconsin, offers a day-long pilgrimage of peace and reflection.

The outdoor Shrine is a replica of the site of the apparition in France with seating for outdoor liturgies. Located close by are shrines that commemorate the apparitions of the Mother God, inviting us to ponder on the messages she gave to the visionaries.

The La Salette Missionaries minister in 23 countries around the world; they are best known for their compassion, willingness to listen and understand. In this fast-paced world, they provide a vital role - someone for a troubled person to talk to.

La Salette (La-sa-let) French words meaning "the little room", is also the name of a little French village nestled in the Alps where an extraordinary occurrence took place near the village on September 19, 1846.

Today, it is the site of a shrine built to celebrate an appearance of the Mother of Jesus to two children. It is holy ground for the Mother of God came to this remote area to invite all her children to the reconciling love of her Son, Jesus. It is a place of faith and prayer, a place of prophetic challenge to our time, a place of pilgrimage.
